GENERAL ENTRY REQUIREMENTS FOR MASTER'S DEGREES AT THE UNIVERSITY OF OVIEDO

1. **Official university degree issued by a Spanish University**

Any student holding an official university degree (graduates, engineers, architects or holders of any 2, 3 or 4-year degree) issued by a Spanish University can apply for a Master's Degree.

2. **University degree issued within the European Higher Education Area (EHEA)**

Any student holding an official university degree issued by a higher education institution of a member state integrated in the EHEA can also apply provided that their degree grants access to Master studies.

3. **University degree outside the European Higher Education Area (EHEA)**

Any student holding a university degree issued by a higher education institution outside the EHEA can also apply provided that the degree entitles the student to take a Master's Course.

Admission into an official Master's Degree does not mean the recognition or validation of the degree submitted for admission for any other purpose than to study the corresponding Master's Degree.

In any case, students must take into account the specific entry requirements for each Master's Degree before pre-registering for a course.
